

Rolling spread loss graph

The graph displays three metrics over time: Profit (blue dashed line), Loss (orange dashed line), and Spread Loss (green dashed line). The Profit line starts at approximately 0.0001 and fluctuates slightly. The Loss line starts at approximately 0.0001 and increases steadily to approximately 0.0004. The Spread Loss line starts at approximately 0.0001 and remains relatively flat. The x-axis is labeled 'date' and the y-axis is labeled 'loss'.
